

Level B Testing--Interpreting the Results

Presented By: Jared Froese, R.Psych

Date(s):

Thursday, October 17, 2019
9:00 AM - 3:30 PM

Session Location:

Red Deer Catholic Board Office
5210 61 Street, Red Deer, AB

Registration Fee:

\$175.00

Audience: Teachers

Grade Level:

Special Notes:

This session is ONE day only.

About the Session:

**This
one day**

session will assume participants already have a solid understanding of the background of Level B assessment related to how Level B assessment tools are developed, and also the administration of Level B tools. With this background knowledge, this session will then focus largely upon how to effectively interpret Level B test results, so that the rich information gathered within a Level B assessment can be effectively utilized at home and school, and also effectively explained to parents.

About the Presenter(s):

Jared Froese, R.Psych

Jared Froese is a Registered Psychologist based out of Red Deer, Alberta who has been providing wide-ranging supports to schools for the last 15 years. In addition to the work Jared completes within the schools he directly contracts with, he is also a member of the diagnostic team with the Fetal Alcohol Spectrum Disorder (FASD) Network in Central Alberta that completes multi-disciplinary assessments with both children and adults. As well, Jared has extensive experience working with individuals impacted directly or indirectly by domestic violence. Finally, Jared, whose parents are two now-retired schoolteachers, loves providing educational opportunities for those in a variety of settings, on a variety of topics, as he is a strong believer that when we understand the needs of a child, we are able to far more effectively provide the types of environmental supports and opportunities that allow for optimal growth and development. This relates to specific issues related to cognitive and/or academic development, as well as the manner in which we as parents and/or teachers have an opportunity to promote the determination and grit that all children benefit from in all areas of their life
