

Electricity and Magnetism/Mechanisms Using Electricity

Grade 5

Presented By: Craig Boris

Date(s):

Wednesday, November 13, 2019
6:30 PM - 8:00 PM

Session Location:

Central Alberta Regional Consortium
8 Page Avenue, Red Deer, AB

Registration Fee:

\$20.00

Audience: Teachers

Grade Level: Grade 5

About the Session:

Please join us for an interactive, hands-on workshop on the Grade 5 curriculum topics 'Electricity and Magnetism,' and 'Mechanisms Using Electricity.' You will leave with increased background knowledge, as well as ideas of activities to take back to your classroom.

About the Presenter(s):**Craig Boris**

Craig Boris was born and raised in the Central Alberta region. He has been working as an electrical engineer since his graduation from the University of Calgary in 2005. Since 2012 Craig has owned and operated his own small engineering consulting firm, 908 Engineering Inc. together with his mechanical engineering partner.
