

Air & Aerodynamics / Flight / Sky Science Grade 6

Presented By: Ed Kusmirski

Date(s):

Wednesday, November 20, 2019
6:00 PM - 7:30 PM

Session Location:

Central Alberta Regional Consortium
8 Page Avenue, Red Deer, AB

Registration Fee:

\$20.00

Audience: Teachers

Grade Level: Grade 6

About the Session:

6:00 pm to 7:00 pm: Air and Aerodynamics

Please join us for an interactive, hands-on workshop on the grade 6 curriculum topics "Air & Aerodynamics" and "Flight". You will leave with an increased knowledge of the science principles at work and classroom ready demonstrations for you to experiment on with your students.

7:00 pm to 7:30 pm: Sky Science

After a quick break we will cover a few concepts relating to the "Sky Science" unit. In particular we will show you some demonstrations that you can use to cover the earth / moon system, rotations, orbits and moon phases.

The Alberta Science Network Teacher Workshops program is geared to new teachers and teachers new to a grade level. We provide the theory behind the science and give teachers practical ideas and demonstrations to make them more comfortable and confident with the unit.

About the Presenter(s):

Ed Kusmirski

Ed Kusmirski, P.Eng. is the Executive Director of the Alberta Science Network and has been providing workshops through the Alberta Science Network for Teachers in Alberta for a number of years. These workshops are directly linked to the Alberta Curriculum.
